Dear Dick,

I wanted to thank you for your time and effort in delivering the "Effective Personal Leadership" course and assuring its' successful completion. I have benefitted from the course in many ways. Implementing a personal plan for growth has enabled me to set goals and priorities, to delegate work and to improve productivity.

I especially benefitted from the Wheel of Life exercises and the use of personal affirmations. I will continue to use these in my work.

Thank you again for your effort and assistance. Do not hesitate to contact me as a reference.

Very truly yours,
